

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	02 July 2026
Team ID	
Project Name	Darshan Ease – Temple Darshan Ticket Booking System
Maximum Marks	4 Marks

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 10 minutes to prepare
- 1 hour to collaborate
- 3-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

- 10 minutes

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a focused and productive session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

How can we **Have night in your problem statement?**

Key rules of brainstorming

To run an unbreak and productive session

- Stay in topic
- Encourage wild ideas
- Defer judgment
- Listen to others
- Go for volume
- If possible, be visual

Problem Statement

Many devotees face long waiting times and difficulty in booking temple darshan tickets through traditional offline methods. There is no simple platform where users can register, view available darshan tickets, and book them online securely. The proposed Darshan Ease system aims to provide an easy, secure, and user-friendly online temple darshan ticket booking platform.

Objective

To develop a secure online temple darshan ticket booking system that simplifies the booking process, reduces waiting time, and provides an easy experience for devotees.

Step-2: Brainstorm, Idea Listing and Grouping

Brainstormed Ideas

- Online user registration
- Secure login using JWT authentication
- Temple selection and darshan slot listing
- Online ticket booking
- View current and past bookings
- Electronic / digital ticket generation
- MongoDB database for persistent storage
- Responsive, easy-to-navigate web interface
- Admin management of temples, products and orders
- User profile management

Grouping

Authentication	Register, Login, JWT-based Authentication
Booking	Temple Selection, Slot Selection, Ticket Booking, View Bookings
Database	MongoDB, Secure Data Storage
User Experience	Responsive UI, Easy Navigation, Profile Management

Step-3: Idea Prioritization

4

Priorities

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

High Priority	Online temple darshan ticket booking (core feature)
Medium Priority	JWT-based secure user authentication
Medium Priority	Responsive user interface
Low Priority	Online payment gateway integration (future scope)
