

Project Demo Planning

Date	02 July 2026
Team ID	
Project Name	Darshan Ease – Temple Darshan Ticket Booking System
Maximum Marks	1 Mark

Project Demo Planning:

This document outlines the plan for demonstrating Darshan Ease, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Briefly explain the problem devotees face with offline darshan ticket booking and introduce Darshan Ease as the solution.	1	Kosetti Uday Kumar
2	Solution Overview & Architecture	Walk through the tech stack and architecture – React frontend, Express/Node backend, MongoDB database, MVC pattern.	2	Ayinavalli Amrutha Varshini
3	Live Demo: Registration & Login	Register a new user and log in, showing JWT-based authentication working end-to-end.	2	Ayinavalli Amrutha Varshini
4	Live Demo: Browsing & Booking	Browse available temples/darshan slots, book a ticket, and show it appear in booking history.	3	Ayinavalli Amrutha Varshini
5	Live Demo: Admin – Product & Order Management	Show the admin side adding/updating a temple record and managing an existing order.	2	Ayinavalli Amrutha Varshini
6	Conclusion, Future Scope & Q&A	Summarize what was built, mention future scope (payments, notifications, QR tickets), and open the floor for questions.	2	Kosetti Uday Kumar

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Set the context – why offline temple darshan booking is a problem and what Darshan Ease solves.
2	Solution Overview	Show the architecture diagram and briefly explain how the frontend, backend, and database connect.
3	Live Feature Demonstration	Register → login → Browse Products → Place Order → View Orders → view booking history → admin manages products/orders.
4	Q&A Session	Open the floor for questions from the mentor/evaluator; keep team members ready to answer on their respective modules.
