

Demonstration of Proposed Features

Date	02 July 2026
Team ID	
Project Name	Darshan Ease – Temple Darshan Ticket Booking System
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures the features proposed for Darshan Ease during planning and tracks whether each was successfully implemented and demonstrated.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Registration & Login	Devotees can register with name, email, and password, and log in securely via JWT-based authentication.	Implemented	Yes	Verified via Thunder Client and the live Register/Login pages
2	Temple / Product Browsing	Displays the list of temples / darshan products fetched from the backend, with name, description, and price.	Implemented	Yes	Product list confirmed loading correctly on the Products page
3	Order Creation / Ticket Booking	Users can select a slot and create a new booking / order.	Implemented	Yes	Order creation tested and confirmed via the booking flow
4	Booking / Order History	Users can view their current and past bookings.	Implemented	Yes	Orders retrieved and displayed correctly for a logged-in user
5	Profile Management	Users can view their profile information after login.	Implemented	Yes	Profile view/update flow tested end-to-end
6	Admin – Product & Order Management	Admin can create/update/delete temple records and view/manage all orders.	Implemented	Yes	Admin CRUD operations verified for products and orders

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
